

I feel very lucky to have K-LOVE radio (FM 90.7) available in the \ Hampton Roads area. As a resident of this area I am able to listen to positive and encouraging messages throughout the day rather than the negativity and scandal that most other radio stations play. Those other stations create a lot of discord among listeners, and K-LOVE does not. I have many friends with children and they feel that K-LOVE is the only safe station they can leave on without fear of their children hearing something foul or vulgar. If K-Love were to be displaced by an LPFM broadcaster providing other programming I would no longer listen to the radio. I'd rather listen to CDs or books on tape. K-LOVE is listener supported (I'm one of those supporters!) which means they aren't commercials. I refuse to listen to a radio station that plays commercials more often than music or programming. K-LOVE is definitely the better choice as far as public interest is concerned. K-LOVE provides the community with information about free events. I think the most important aspect of their programming is that they are positive, and most of the other stations out there are negative or vulgar. Please don't take away K-LOVE!!!
